

NC Spiritual Positivity

Human Beings are divided into 5 different Categories:

1. Positive Negative.
2. High Positive and Low Negative.
3. High Negative and Low Positive.
4. Only Positive.
5. Only Negative.

Truly speaking, there is no body in this world who is fully negative because there is indestructible positive power lying dormant within oneself. Today, the disturbances in this world are mainly because of the people of two categories; one is Positive Negative and the other is High Negative and Low Positive. The High Positive and Low Negative Persons seldom disturb others.

Human mind is vulnerable and to study it, is very difficult. Human mind oscillates between opposites and is rarely centered. To make the human mind still is the toughest task. If we are able to make the human mind still, it becomes positive.

Science and technology cannot regulate the human mind, which means no material in this universe can be used to transform the human mind for mind is above matter. If one is successful in transforming his mind to become totally positive, he becomes an asset to this world.

Spiritual Positivity is different from Material Positivity. Spiritual Positivity is the trial of transforming the human mind into positive. Material Positivity is related to the Success & Failures. Success & Failures are not going to transform the human mind into positive. It is like Loss & Gain which will worsen the condition of the human mind. Success creates pride which can disturb others & failures create disappointment and depression which can also disturb others. If the mind is disturbed because of some reason, it starts disturbing others and is comparable to an epidemic.

When we talk about world peace, we don't understand the difficulties in creating it. Each individual's mental peace only can result in World peace. Materialistic

developments create desires, expectations, envy and competition. So, it is not possible to bring down the negativity of the human mind with materials. It is only heightened.

Transforming the human mind is possible when the mind starts the search within. If the search is outside for materialistic benefits, it is not going to solve the problems of negativity.

Listed below are a few traits of a Spiritually Positive Person:

- An undisturbed mindset, irrespective of external happenings.
- Being peaceful always.
- Will not feel that he has either gained or lost anything.
- Tolerance and patience towards the mentally disturbed.
- Equanimity in Success and Failures.
- Bears no ill-feelings.
- Willing to help anyone who approaches him without discriminating.
